SOFTWARE DEVELOPER

A hardworking, responsible and committed engineering student seeking an **internship / job** in the field of IT where I can apply my knowledge and skills for continuous improvement. I'm really passionate about exploring new areas of **Data Science, Data Analyst and Machine Learning**.

TECHNICAL SKILLS

Languages	: Python, C++, HTML, CSS, Javascript
Libraries	: Streamlit, Sklearn, Matplotlib, Seaborn, Numpy, Pandas
Databases	: MongoDB, SQL, Firebase
Dev Tools	: Visual Studio Code, Git, Jupyter, Canva, Pycharm, PowerBI

EXPERIENCE

Data Science Intern

Dec 2022 - Jan 2023

Arb Dossier

OnSite – Mumbai, Maharashtra, India

- Used **Microsoft Power Automate Software** to create a flow that perform **Web Automation and Web Scrapping** on various Government Websites.
- Perform Web Automation using **Selenium** and Web Scrapping using **Beautiful Soup**

EDUCATION

Thadomal Shahani Engineering College

Mumbai, Maharashtra, India

Bachelor of Engineering in Information Technology

2020 – 2024

CGPA: 9.20 (Till Sem V)

iNeuron.ai

Remote

Data Science

Feb 2023 – Sept 2023

PROJECTS

Movie Recommendation System

Python, Streamlit, Jupyter, Git

[Source Code](#)

- Created a content based Movie Recommendation System using **Python, Streamlit**
- It detects **five similar movies** with their poster when the user selects a particular movie

Credit Card Approval Prediction

Python, HTML, CSS, flask, Jupyter, Git

[Source Code](#)

- Created a Web Application which can predict whether a user is eligible for the credit card or not
- Deployed the app using flask

Sales Insight Dashboard

PowerBI, Excel

[View](#)

- Created a **PowerBI** dashboard using Sales Dataset of a US based Company
- Build various chart such as Donut, Slicer, Area, Map

CERTIFICATIONS

- [Python \(Basic\) Certificate](#)
